Because lovers of sports in Xenia as well as everywhere else, and men in general, are interested in the big Willard-Dempsey fight, at Toledo, July 4, the Gazette and Republican are going to receive and post telegraph bulletins giving the progress of the contest round-by-round.

While some of the people of this community do not look with favor upon the contest, and believe that the authorities should not permit a prize fight, yet since this bout is to be staged to decide the heavy weight championship, it is the biggest news event of the times in the sporting world, and for that reason these papers will give it due consideration.

The function of a newspaper is not to cater to one class of people more than another. It is for all. Religious events of importance are always featured by the Gazette and Republican. Special reporters are frequently assigned to handle stories of local meetings of importance in a religious way, and the management of these papers wants the news of interest to the church people of the community to be given every consideration. At the same time these papers have other classes of readers, and there are several of these classes, including many of our better people, who are very much concerned whether or not Jack Dempsey will knock out big Jess Willard up at Toledo on Independence Day, or whether Willard will remain the heavyweight champion.

So when the people line up in front of the Gazette and Republican building next Friday, they will get the dope on the fight as fast as the wires can bring it down from the Lake Erie City.

THE LEADING HOME FURNISHER FOR OVER THIRTY YEARS

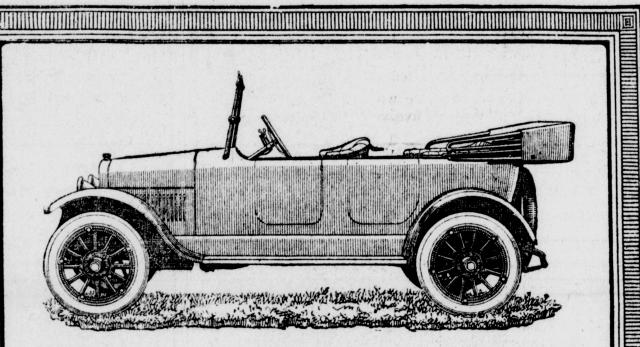

We Close at 5 P. M. **Every Afternoon** During

July and August

You Furnish a Home But Once in a Lifetime

You do not buy furniture every day. That's the very reason you should be careful when buying. Choose only styles that will please you in years to come. Buy qualities that will give you long and satisfactory service. This is the only kind worth buying, and is least expensive in the end; as it gives you most for your money. We have built our business on just this kind of furniture. Whatever you may be planning to buy, we are sure you will be interested in our stocks and prices.

This is a Greater Maxwell

There have been many improvements made in the Maxwell since the war ceased. Some of them have made the car look better. Others have made it run better.

You will note a new type radiator, a further advance in body detail, an improved electric system, a Hot Spot and a Ram'shorn, a superior development in upholstery, and a top more durable.

Any of these is well worth any man's time to look over, and the sum of all represent a decided value added to the car, which post-war purchases for cash have made possible without increasing the price.

But the fundamentals of the car are unchanged. 300,000 Maxwells on the highways of the world-all of the same model -have proved that a policy of never changing the base design is profitable in more ways than one to buyer and maker.

It means extra value at a lower price.

It means perfection in design.

It means perfection in workmanship.

It means you pay for no experiments, no engineering knick-knacks. It means you pay for no mistakes.

It means a car of everlasting reliability.

It means a car of endless mileage.

You can easily pay \$200 more and receive less. This Maxwell is old in antecedents but modern as far as sound engineering dare go.

There is no car of the day selling for so low a price to offer so many attractive inducements.

See this recent Maxwell, and bear in mind that despite the eight great Maxwell plants the supply is already running far \$895 f. o. b. Detroit. short of the demand.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

By worry, despondency, social affairs, robbing brain and body of need-ed rest; excessive use of tobacco, indulgence in strong alcoholic drink— be brought to the attention of the excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

the endurance and the keen mind of those who avoid excesses.

Timidness, despondency, fear, trem bling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves.

People with plenty of red blood corpuscles and strong, healthy merves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not drudgery to have a superman, you must take seven tablets of the committee of the executive committee of the Greene county chapter of the Red Cross which will be associated with Mrs. Quisenberry in this laudable work is composed of the following: Rev. FRENCH BRIDE IS BROUGHT HOME BY **GREENE CO. SOLDIER**

Sunny France has invaded Greene County in the coming of pretty and Madame Madeline Mangou Shupp, who as the bride of Clifford L. Shupp, late of the Fifth Marines, has come to this country from far off France and has taken up her abode with her soldier husband at the home of his parents, Mr. and Mrs. J. A. Shupp, at Goes Station.

Although many of the pretty, darkeyed French maidens have come to this country as the wives of American soldiers, Mrs. Shupp is the first to marry a Greene County boy and to come to this country to make her home. And she likes it too, although her limited English vocabulary does not permit her to enlarge upon her idea of America in general and Greene County in particular.

For she is just learning to speak English and as yet has conquered but a few words of this difficult language. With her smattering of English and her husband's smattering of French, they manage to understand each other, however, and the pretty bride has expressed herself as being very well pleased with her adopted

The marriage of Mr. Shupp and his little French bride took place in Bordeaux, April 15, 1919, and after coming over on the same transport, they arrived at Mr. Shupp's home last week, Mr. Shupp enlisted in the Marines in 1915 and served as a member of the 20th., Co. 5th. Regiment. He went to France in August, 1917 and landed at St. Nazaire, going from there to Bordeaux where he spent four months. It was there he met his pretty little French bride, who is the daughter of a mechanic in the famous rench seaport.

From Bordeaux, Mr. Shupp went to the front leaving his French sweetheart to await his return. And she did. After the armistice and the beginning of the migration of the troops home, he was sent to Bordeaux, where he rejoined his sweetheart and where they were married April 15. by the Mayor of Bordeaux.

Through special passports, Mr. Shupp arranged to bring his bride over on the same transport with him and after his demobilization they came directly to the home of Mr Shupp's parents at Goes Station.

Mr. Shupp is employed at the Aetna Power Company at Goes Sta tion, and he and his bride are making their home with his parents. In her spare moments, Mrs. Shupp learning to speak English and according to her husband, she is learning

CENTENARY CELEBRATION COLUMBUS

(OHIO)

Described by William C. Freeman, Associated with Paul Block, Inc., New York, Chicago,

God bless the women of the world!

What wonderful work they perform-and how gently, genuinely and unselfishly they perform it! I met in the Main Exhibition Building at the CENTENARY CELEBRATION COLUMBUS a fine, motherly lady who has devoted her life to directing a mission in San Francisco, where she gathers under her wing little chil-dren, most of whom have been abandoned by their parents, and she nurtures them and watches them and sees that they grow to poung womanhood, protected with all the care and love that they would get if they were in homes of their own and loved by their parents as so many millions of

other little children are. This fine lady brought with her as exhibits of the work done by her Mission, two little baby girls them a little Chinese girl and the other a little Japanese girl. While I was talking to her the lit

side of me, took hold of my hand, looked into my face with the sweetest smile I ever saw as much as t say, "You will protect and love me won't you?" And a little child shall lead him.

This little baby girl led me around the quarters of the San Francisco Mission trying to tell me in her own little way: "See how we are taken care of by this good lady. Look at me-a little waif, not wanted by either my papa or mamma-a stranger, yet she took me in and clothed me and fed me, just she does other little girls like

I confess that the confidence this little baby girl showed she had in me was a great inspiration and made me feel, as it will you wher you see her, what a grand work is being done, under the auspices of the Methodist church, which originated this Centenary Celebration solely for the purpose of demon-LOCATES IN XENIA strating to you, good people, what can be done for the helpless and homeless in countries throughout the world by just showing heart

With the strains of music from the Rainbow Band—from the Band of Colored Boys—from the Trombone Chorus of one hundred pieces—from 16 Negro quartettes—from the great pipe organ in the Coliseum that peals forth wonderful strains under the artistic touch of one of greatest organists in the world—from the great chorus of 3,000 human voices that one hears while the great pageant is hears while the great pageant is shown in the Collseum—and finally from Cincinnati's Symphony Orchestra, consisting of seventy-five pieces—you can understand why everybody who visits this wonderful exhibition goes away thrilled—and filled with deep appreciation of the master minds; that planned the Centenary Celebration, Columbus.

You will miss the greatest opportunities of your life if you fail to witness this Centenary Celebration. We are in the summer season, when the days are long and happy when it is easy to drop our work for a day or two-so why not set aside the time necessary to visit Columbus and spend all the time there witnessing the marvelous features of this really Big Show. of this really Big Show.

"SWINGING ROUND THE CIRCLE."

The Lancaster, O., Gazette, an official organ you might say of the Republican party in its county, has any girl would. done good service in calling attention to the fact that endorsement of the League of Nations was a separate and special plank in the platform of the Republican party of Ohio for the year 1918. The resolution which endorsed the League was as follows:

"We would have the world kept safe for the co-operation of mankind and the maintained fraternity of nawe favor the participation of the United States in a League of Nations to maintain the peace of the world. "Pending such established security,

we favor military training in the spirit of a republic which condemns military domination.

The Lancaster Gazette appears also to have inside information as to the particular members of the party who were the responsible fathers of this resolution of 1918, for it asserts that it was the work of Republican National Chairman, Will H. Hays, of Indiana. Certainly good authority, wise, very generous, very kind. And and if it was genuinely good Republican doctrine only a short year ago, we contend that it has lost none of its virtue since. As to the production of the resolution of 1918 the Gazette forced back the tears. I look hor-

BIRDS HELP THE FARMER

From the Birmingham Age-Herald The importance of protecting our native birds is apparent when we consider that insects cost the American people approximately a billion dollars a year. A writer in Thrift magazine says "a recent examina tion of the stomach of a cedar wax wing (cherry bird) revealed 100 canker worms." In the stomach of a scarlet tanager were found 630 gypsy moth caterpillars.

Hawks and owls are birds of il repute, yet it is estimated that a hawk or an owi kills an average of 1000 mice every year. Birds that feed on the seed of weeds, small rodents and insects are friends to the farmer. In their persistent quest of food they aid materially in conserving crops.

The wanton destruction of birds is both inhuman and an economic waste. Fortunately, many states have recognized the value of protecting man's feathered friends, and sensible laws have been passed for that purpose. Alabama has an ably conducted fish and game department, presided over by John H. Wallace, who is recognized as an authority throughout the country.

That is way they use Red Cross Ba' Blue. All leading grocers, 5 cents.

EASTEND NEWS

Springfield Debating club will present Miss Chloe Oglesby in recital at Zion Baptist Church, July 11th accompanied by Prof. Victor

Misses Ella, Nannie and Ruby Rickman exhibited some of their musical and literary ability and training at St. John's A. M. E. Church, Sunday. At the morning service, Miss Ella sang the Rosary with charm and effect. She has a rich, dramatic, soprano voice. At the evening service Miss Nannie recited a poem on the war, which was written by her brother, Corporal John Rickman, who is now overseas. She has much natural elocutionary ability, which has been perfected by training. Miss Ruby sang very sweetly "Calvary." She held the large audience spellbound during her rendition of this heartily applauded each number, state of W. Va. These young ladies were born hereand will stop over in Buffalo, N. THREE FARMERS HURT IN ACCIDENTS

Cecil Tavender was rendered unonscious and suffered injuries to his knee and ankle and James Harner suffered dislocations of his thumb and wrist when they were thrown from a binder while coming down Swarener Hill on the Fairfield pike Monday.

The men lost control of the binder when it started to coast down the hill and they were both thrown from the machine. Charles A. Harner, of the Fairground road, a relative of James Harner, was injured several days ago, when the horse started when he was standing in the path of his mowing machine the blade inflicting a wound in his leg that required five stitches.

NINE ARE KILLED IN

New York, July 1 .-- Nine persons were killed including seven passengers, and three others may die and end collision between two trains of the New York Centra at Dunkirk, N. Y., at 2:20 a. m. today said a revised statement given out at the New York Central offices here today. The collision occurred when train No. 7 ploughed into the rear end of the second section of train No. 41, which had halted at Dunkirk for minor repairs. The dead:

Mrs. Minnie Carton, Toronto, Ont. Mrs. Edmund A. Quinonu, and her two daughters, aged about 3 and 10 years, Niagara Falls, N. Y.

Three unidentified men passengers.

F. L. Clifford engineer of train No. 7, believed to be from Buffalo. The New York Central offices

here reported that an earlier statement they had issued, declaring that the tower signal at Dunkirk and the signal at the rear of train No. 41 were against the oncoming No. 7, was based on premature reports and asked that it he withdraws.

The worst damage was done at Vecchio, where only the Piazza giotto escaped destruction. Two famous third century towers were rent in twain by the shocks. The arch of the noted Crocifisso church collapsed.

As yet no news has been received that it be withdrawn.

One of the three unidentified victims was about 40 to 45 years old. six feet tall, smooth faced and of sandy complexion.

Because lovers of sports in Xenia as well as everywhere else, and men in general, are interested in the big Willard-Dempsey fight, at Toledo, July 4, the Gazette and Republican are going to receive and post telegraph bulletins giving the progress of the contest round-by-round.

While some of the people of this community do not look with favor upon the contest, and believe that the authorities should not permit a prize fight, yet since this bout is to be staged to decide the heavy weight championship, it is the biggest news event of the times in the sporting world, and for that reason these papers will give it due consideration.

The function of a newspaper is not to cater to one class of people more than another. It is for all. Religious events of importance are always featured by the Gazette and Republican. Special reporters are frequently assigned to handle stories of local meetings of importance in a religious way, and the management of these papers wants the news of interest to the church people of the community to be given every consideration. At the same time these papers have other classes of readers, and there are several of these classes, including many of our better people, who are very much concerned whether or not Jack Dempsey will knock out big Jess Willard up at Toledo on Independence Day, or whether Willard will remain the heavyweight champion.

So when the neople line up in front of the Gazette and Republican building next Friday, they will get the dope on the fight as fast as the wires can bring it down from the Lake Erie City.

This is a Greater Maxwell

There have been many improvements made in the Maxwell since the war ceased. Some of them have made the car look better. Others have made it run better.

You will note a new type radiator, a further advance in body detail, an improved electric system, a Hot Spot and a Ram'shorn, a superior development in upholstery, and a top more

Any of these is well worth any man's time to look over, and the sum of all represent a decided value added to the car, which post-war purchases for cash have made possible without increasing the price.

But the fundamentals of the car are unchanged. 300,000 Maxwells on the highways of the world-all of the same model -have proved that a policy of never changing the base design is profitable in more ways than one to buyer and maker.

It means extra value at a lower price.

It means perfection in design. It means perfection in workmanship.

It means you pay for no experiments, no engineering knick-knacks.

It means you pay for no mistakes.

It means a car of everlasting reliability. It means a car of endless mileage.

You can easily pay \$200 more and receive less. This Maxwell is old in antecedents but modern as far as sound engineering dare go.

There is no car of the day selling for so low a price to offer so many attractive inducements.

See this recent Maxwell, and bear in mind that despite the eight great Maxwell plants the supply is already running far \$895 f. o. b. Detroit. short of the demand.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime. vey of the entire county, investigat-Many become nervous and inefficient by overwork.

By worry, despondency, social affairs, robbing brain and body of need-relief organization. Such cases will ed rest; excessive use of tobacco, indulgence in strong alcoholic drink— be brought to the attention of the excesses of every kind that burn up the vital powers so necessary in these executive committee of the Red Cross trying times to make both men and women fit to be of help to themselves which will provide proper relief. Mrs.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition about families which need help.

paired nerves caused by impoverished blood lacks vigor, the ambition. the endurance and the keen mind of those who avoid excesses.

Timidness, despondency, fear, trem bling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves.

People with plenty of red blood corpuscles and strong, healthy merves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organid disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; .to have steady nerves, abundance of red blood and power of endurance; to be not only a man but as men now go, a superman, you must take seven tablets of Bio-feren every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious,

FRENCH BRIDE IS BROUGHT HOME BY **GREENE CO. SOLDIER**

Sunny France has invaded Greene County in the coming of pretty and petite Madame Madeline Mangou Shupp, who as the bride of Clifford L. Shupp, late of the Fifth Marines, has come to this country from far off France and has taken up her abode with her soldier husband at the home of his parents, Mr. and Mrs. J. A. Shupp, at Goes Station

Although many of the pretty, darkeyed French maidens have come to this country as the wives of American soldiers, Mrs. Shupp is the first to marry a Greene County boy and to come to this country to make her home. And she likes it too, although her limited English vocabulary does not permit her to enlarge upon her dea of America in general and Greene County in particular.

For she is just learning to speak English and as yet has conquered but few words of this difficult language. With her smattering of English and her husband's smattering of French, they manage to understand form-and how gently, genuinely each other, however, and the pretty bride has expressed herself as being very well pleased with her adopted Building at the CENTENARY

The marriage of Mr. Shupp and his ittle French bride took place in Bordeaux, April 15, 1919, and after comng over on the same transport, they arrived at Mr. Shupp's home last week. Mr. Shupp enlisted in the Marines in 1915 and served as a member of the 20th., Co. 5th, Regiment. He went to France in August, 1917 and landed at St. Nazaire, going from there to Bordeaux where he spent four months. It was there he met his pretty little French bride, who is the daughter of a mechanic in the famous French seaport.

From Bordeaux, Mr. Shupp went o the front leaving his French sweetheart to await his return. And she did. After the armistice and the beginning of the migration of the troops home, he was sent to Bordeaux, where he rejoined his sweetheart and where they were married April 15. by the Mayor of Bordeaux. Through special passports, Mr

Shupp arranged to bring his bride over on the same transport with him and after his demobilization they came directly to the home of Mr Shupp's parents at Goes Station.

Mr. Shupp is employed at the Aetna Power Company at Goes Station, and he and his bride are making their home with his parents. In her spare moments, Mrs. Shupp learning to speak English and according to her husband, she is learning

CENTENARY CELEBRATION COLUMBUS

Described by William C. Freeman, Associated with Paul Block, Inc., New York, Chicago, Detroit, Poston.

God bless the women of the world!

What wonderful work they per and unselfishly they perform it! met in the Main Exhibition CELEBRATION COLUMBUS a fine, motherly lady who has devoted her life to directing a mission in San Francisco, where she gathers under her wing little children, most of whom have been abandoned by their parents, and she nurtures them and watches them and sees that they grow to poung womanhood, protected with all the care and love that they would get if they were in homes of their own and loved by their parents as so many millions of

other little children are. This fine lady brought with her as exhibits of the work done by her Mission, two little baby girls, just able to toddle around—one of them a little Chinese girl and the other a little Japanese girl. While I was talking to her the lift tle Japanese girl toddled up along-side of me, took hold of my hand,

looked into my face with the sweetsay, "You will protect and love me won't you?" And a little child shall lead him

This little baby girl led me around the quarters of the San Francisco Mission trying to tell me in her own little way: "See how we are taken care of by this good lady. Look at me—a little waif, not wanted by either my papa or mamma-a stranger, yet she took me in and clothed me and fed me, just she does other little girls like

I confess that the confidence this me was a great inspiration and made me feel, as it will you when you see her, what a grand work is being done, under the auspices of the Methodist church, which originated this Centenary Celebration, solely for the purpose of demonstration. strating to you, good people, what can be done for the helpless and homeless in countries throughout the world by just showing heart and interest in humankind.

BRATION COLUMBUS will profoundly impress you, besides giving you a liberal education as to conditions that exist in countries other than America, and will teach you how necessary it is for the American people, endowed beyond all other peoples of the world with rich blessings and opportunities, to give serious thought to the unfortunates and to help them in every

way they can. There is nothing but brightness to be seen everywhere at the Ohio State Fair Grounds, Columbus, where the Centenary Celebration None of the gruesome is staged. None of the gruesome things of life are shown. You see everywhere the evolution that has taken place in many countries of the globe where human hearts and brains and hands and human sacrifices have been employed to up-lift humanity.

All of these good things are impressed on your mind without any attempt on the part of anybody to

You cannot fail to get into the to think that it is the most wonderful exposition you have ever seen. Just as I think it is and as everybody else that has seen it thinks it is.

With the strains of music from the Rainbow Band—from the Band of Colored Boys—from the Trombone Chorus of one hundred pieces—from 16 Negro quartettes—from the great pipe organ in the Coliseum that peals forth wonderful strains under the artistic touch of one of greatest organists in the world—from the great chorus of 3,000 human voices that one hears while the great pageant is hears while the great pageant is shown in the Coliseum—and finally from Cincinnati's Symphony Orchestra, consisting of seventy-five pieces—you can understand why everybody who visits this wonder-ful exhibition goes away thrilled— and filled with deep appreciation or the master minds that planned the Centenary Celebration. Columbus.

You will miss the greatest opportunities of your life it you fail to witness this Centenary Celebration. We are in the summer season, when we are in the summer season, when the days are long and happy—when it is easy to drop our work for a day or two—so why not set aside the time necessary to visit Columbus and spend all the time there witnessing the marvelous features of this really Fig Show. of this really Big Show. General admission is only 50 cents,

which carries you through the whole day, but in the evening you will wish to see the great pageant in the Coliseum and that will cost you 50 cents extra—that's all—but if you state. if you start in the morning and continue until 11 o'clock at nightcontinue until il o'clock at night-costing you one dollar all told, you will gather for yourself a greater amount of pleasere and content-ment and information than one dollar has ever brought you before in all your life.

But it's not the dollar—it's not receipts the management wants—for they do not plan to make a penny out of it. IT WANTS YOU to see for yourself what great good is accomplished in the world when heart and brain co-operate.

ficial organ you might say of the Republican party in its county, has done good service in calling attention to the fact that endorsement of the League of Nations was a separate and special plank in the platform of the Republican party of Ohio for the year 1918. The resolution which endorsed the League was as follows:

"We would have the world kept safe for the co-operation of mankind and the maintained fraternity of nations, great and small. To that end we favor the participation of the United States in a League of Nations to maintain the peace of the world. "Pending such established security

we favor military training in the spirit of a republic which condemns military domination.

The Lancaster Gazette appears also to have inside information as to the particular members of the party who were the responsible fathers of this resolution of 1918, for it asserts that it was the work of Republican National Chairman, Will H. Hays, of Indiana. Certainly good authority, and if it was genuinely good Republican doctrine only a short year ago, we contend that it has lost none of its virtue since. As to the production of the resolution of 1918 the Gazette

"In the old Mark Hanna rooms of the Neil House, Columbus, between the hours of 8 and 10 p. m., a subcommittee of three men, of the Committee on Resolutions, duly authorized, met Messrs. Hays and Harding, who drew up and o. k.'d that part of the state platform which had to do with national affairs, and which later was adopted in its entirety by the state convention."

BIRDS HELP THE FARMER

From the Birmingham Age-Herald. The importance of protecting our native birds is apparent when we consider that insects cost the American people approximately a billion dollars a year. A writer in Thrift magazine says "a recent examination of the stomach of a cedar wax wing (cherry bird) revealed 100 canker worms." In the stomach of a scarlet tanager were found 630 gypsy moth caterpillars.

Hawks and owls are birds of ill repute, yet it is estimated that a hawk or an owl kills an average of 1000 mice every year. Birds that feed on the seed of weeds, small rodents and insects are friends to the farmer. In their persistent quest of food they aid materially in conserv

The wanton destruction of birds is both inhuman and an economic waste. Fortunately, many states have recognized the value of protecting man's feathered friends, and sensible laws have been passed for that purpose. Alabama has an ably conducted fish and game department, presided over by John H. Wallace, who is recognized as an authority throughout the country.
